

Assembly Instructions

Traditional Bike Racks

Step 1: According to diagram, attach two ends B-1 and B-2 to A.

Step 2: Attach tubes C-1 and C-2 to A and connect to D. Use provided hardware to complete the assembly. Tighten all bolts.

Note:

Please **DO NOT** over tighten the screws.

Please be aware that the drain holes on D-1 and D-2 should be facing down to the ground.
